ORGANIZATION OF AN EXTERNAL PHD PROPOSAL

1. Project title
Short and enlightening title.

2. PhD Candidate
Name of the PhD candidate submitting the proposal.

3. Promotor
The intended promotor.

4. Summary
A summary of the project in which the most relevant aspects are mentioned: type of research, (central) research question(s), expected results. Max 200 words. Do not exceed this limit.

5. Profile PhD-candidate
Provide a short CV as an appendix to the proposal.

6. Description of the proposed research
You have 2500 words for the description itself. Within this word limit you should cover:
   a. Goal and topic: Specify the goal and topic of the research and your research questions.
   b. Method and approach: Specify method and approach followed during the research.
   c. Type and amount of data: Indicate type and amount of data/sources/literature as specific as possible.

   Apart from the 2500 word description, you may add a bibliography of max. 1 page A4, 9pt and an annex (for instance, with a sample of relevant data) of max. 2 pages A4, 9pt.

7. Word count
Total number of words used for the description under 6, excluding bibliography and annex.

8. Summary in Key words
List 5 key words which together characterize the project most closely.

9. Work programme
Pay special attention to the planning of the project. The project has to be planned in such a way that the goals of the project correspond with a realistic planning. The time schedule must be specific and detailed.
